

## **STATEMENT OF PURPOSE**

### **RS21091C2**

This resolution recognizes the value of providing arts education in the public schools curriculum. Recent budget cuts have resulted in the loss of some opportunities for art study in some school districts. Recognizing that studying in the arts contributes to accelerated student achievement while providing experiences that encourage the creative leadership needed in society, this resolution urges the preservation of arts in the curriculum by sharing community and district resources, utilizing innovative delivery systems, and enlisting local volunteers with expertise in the arts.

## **FISCAL NOTE**

There is no expense to the general fund.
